

Eligibility Criteria- RN-USA

1. RN must have Diploma/Bachelor's degree from an accredited 'Registered Nursing program'
2. RN must have minimum 1 year of work experience after their Registration from the 'Nursing Council'.
3. RN must be currently working in Hospital setup in Recovery Room, Critical Care Areas (ICU, MICU, SICU, CVICU, CCU), Step-down/ High Dependency Unit, Telemetry, Cath Lab, Medical, Surgical, Emergency, Cardiac Nurse, Telemetry, HDU, PCU and Hemodialysis.
4. RN's current Hospital minimum bed capacity has to be more than 150 beds.
5. The level of RN's current Hospital has to be level 5 (Secondary Hospital) and level 6 (Tertiary Hospital) depending on their location (non-rural vs. rural), the cases they see, and the services they provide. Thus, it is not necessarily based solely on bed capacity.
