Business Profile

Salvo is in the business of Corporate Events, operating in the B2B (business-to-business) environment and servicing corporate entities of varied industries. As a business networking company, Salvo differs in business nature from an events management company as we solely manage events that are conceptualized and produced by in-house experts. Salvo creates strategic platforms for companies to be updated on the latest trends and to acquire the best practices, offering them a leading business edge. Conducted by world-renowned experts, our small group trainings (Senior Executive Master-Class) focus largely on the latest business issues and policies, thus allowing delegates to gain maximum interaction and knowledge with industry experts.

Our large-scale conferences highlight the latest business progressions while providing invaluable insights and experiences from industry leaders. Salvo's events are regional in nature, conducted in major Asian, Middle Eastern and African countries including Singapore, Hong Kong, Malaysia, Thailand, China, Indonesia, The UAE, Saudi Arabia, Oman, Kenya, South Africa, Ghana, Mozambique, Nigeria, Tanzania

and Ivory Coast. Every event has a regional coverage so as to effectively meet the organizational needs of our delegates. Our growth rides on the wave of an increasingly knowledge-driven and globalised economy. As we witness a closer link between global economies, businesses are subjected to keener competition in the greater environment. Thus, there is a greater urgency in adopting the best knowledge or practice.

On the other hand, this has also resulted in increased business opportunities. Under such a business backdrop, the key to survival and growth often lies in continuous innovation that creates new competitive advantages and purposeful agendas, achieved primarily through knowledge acquisition, business networking and building long-term working relationship with our clients. This is Salvo's business, one that holds immense growth potential.
